OBJECTIVE: A software engineering graduate with 2 years of work experience at various internships seeking opportunities to develop web/mobile applications for Company XYZ.

EDUCATION

Software Engineering — *Bachelor of Science*   Aug 2018 - May 2022

Fabulous Honors College   GPA: 4.00

Super Duper University, Town, State

WORK EXPERIENCE

ACME

- *Software Engineer*   Jul 2024 - Present
  - Led the development of a microservices-based architecture for a high-traffic e-commerce platform, reducing system downtime by 30% and improving scalability.
  - Implemented CI/CD pipelines using **Jenkins** and **Docker**, accelerating deployment cycles by 50% and reducing human error in production releases.
  - Optimized database queries for the core product, decreasing query time by 40% and improving API response times by 20%.

- *Junior Software Engineer*   Sep 2021 - Jun 2024
  - Built and maintained RESTful APIs using **Node.js** and **Express**, integrating them with a **MongoDB** database for a user authentication system that served 50,000+ users.
  - Contributed to front-end development using **React.js**, enhancing user interface responsiveness and improving client satisfaction by 15%.
  - Assisted in refactoring a legacy codebase, reducing technical debt by 25% and improving code maintainability.

Radiant Software Systems — *Summer Intern*   May 2021 - Aug 2021

- Developed a mobile app in **React Native** that was downloaded 100k times on Google Play.
- Collaborated in an **Agile/Scrum** team of 8 engineers to deliver new features every 2 weeks.

TECHNICAL PROJECTS

Personal Project — *Expressive Resume*   Nov 2021 - Dec 2021

- Created a LaTeX class that makes it easy for anyone to quickly create a beautiful resume and cover letter.
